Certifications

Mendix Course

This course is specialized in Low-Code technology which allows us to create applications in a very simple way, with few resources and with the ease of launching the product to the market in a very short period of time.

Networking Course

This course is oriented to manage company networks, to connect and monitor devices, to secure and automate operations and to calculate and manage data.

Language

English: B1 according to the Common European Framework of Reference.

HIGHER UNIVERSITY TECHNICIAN IN INFORMATION TECHNOLOGY. AREA: MULTIPLATFORM SOFTWARE DEVELOPMENT

ABOUT ME

I have always believed that learning is a fundamental task for life.
As a technology enthusiast and with a firm commitment to professional growth, I have consolidated my training as a University Technician in Information Technology.

EXPERIENCE

I have participated in the development of a website for a small business focused on selling services. I developed the back-end development of the website, programmed the content of the site to include business data, as well as dynamic interactions with the website, such as card sales and results visualization and data downloads.
